

**ConnectED International**

*A charity that partners with local community groups to support sustainable change, through educating and empowering whole communities, in areas that need it most.*

*Starting with Uganda.*

# Three Core Principles

## Education for all

Through education, individuals can be empowered to strive towards their potential, and this starts in the first 5 years of their life.

## Bring out the best

Communities already have so much knowledge, energy and insight into what they can do to improve lives, but often more support is needed to begin.

## Connect people

Bringing a range of people together with a shared purpose is a powerful mechanism for instilling and sustaining meaningful change.

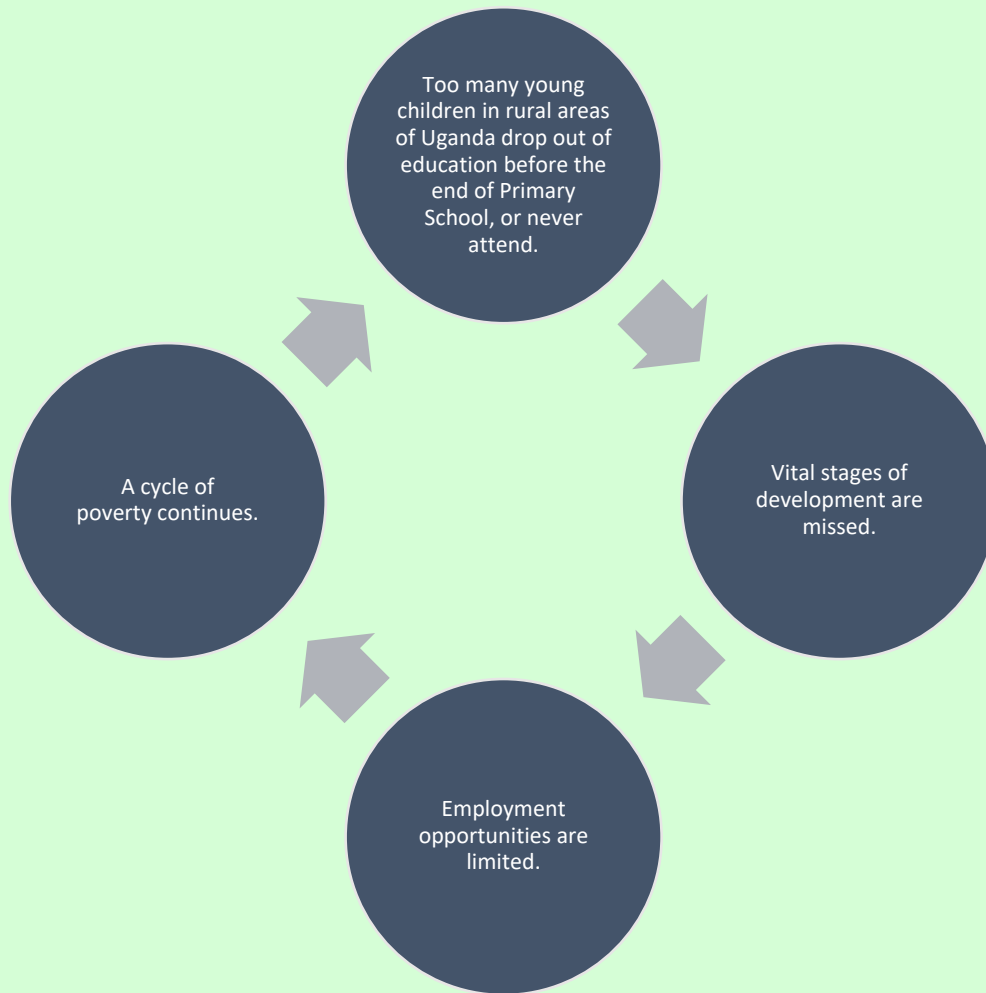

# A Strong Focus – Targeted United Nation Sustainable Development goals (UNSDGs)

UNSDG 4	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
UNSDG 5	To achieve gender equality and empower all women and girls
UNSDG 8	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
UNSDG 17	Strengthen the means of implementation and revitalise the global partnership for sustainable development.

# The Problem

- Community groups working to improve the situation do not get the resources they need to realise their potential impact.
- They have the local knowledge and enthusiasm but require more financial and intellectual support.

# Our Solution – A collaborative and informed approach

## Enhancing

Enhancing the early learning environment for young children, working with knowledge experts in England and collaborating with local individuals with local knowledge.

We are creating, funding and sourcing an **Early Learning Environment pack** for centres promoting education for children in their most formative years.

## Enriching

Raising competence and confidence of teachers, providing purposeful professional development.

We are organising **accessible training and education for passionate individuals** working with children, to support their ongoing development and ensure children are receiving high quality care and education.

## Promoting

Promoting early learning in communities, as widely as possible in rural Uganda.

We are developing an information pack and **series of workshops to support community groups to develop parent partnerships**, ensuring there is effort from all sides to get children into education and keep them there.
